

## Creating Special Places

For over 50 years now, Lend Lease has been creating communities that define the way Australians like to live.

Truly beautiful places planned to maximise the things we love about our unique way of life.

Places that are designed for the way we live today, yet ever mindful of our responsibilities for how we will live tomorrow; with real opportunities in housing choice, education, work and healthy recreation built in from the very beginning.

We believe everyone who comes and experiences our places should feel safe within a welcoming community that will grow and prosper into the future.

We lead by example. Across the country, communities that we are responsible for continue to flourish, nurturing the very essence of what we believe for generations to come.

*These are the places that make us proud.*
